Heather:

It is not necessary to submit copies of the two documents mentioned on page 12 of the specification. These are mentioned for general background purposes only and are not relevant to the patentability of this application.

There's an error with respect to Document #2 in the IDS - this should be DE 4401572, not DE 4401527 (both are Henkel applications). If you need a copy of this document, let me know. There are no English language equivalents and we do not have an English translation.

The only other document that should be mentioned is WO 01/25184 (our case H4215, now pending as US Ser. No. 10/111127). I'm attaching a translation of the PCT application.
